Healthcare Merchant Certification

Quickly & Confidently Unlock Portfolio Growth

LegitScript Healthcare Merchant Certification is the industry standard for businesses operating in highly regulated healthcare sectors. Recognized by Visa and Mastercard, and trusted by leading payments companies and advertising platforms, Certification helps payment facilitators, ISOs, and acquiring banks onboard and support high-risk healthcare merchants with confidence. Our rigorous Certification Standards ensure adherence to laws, regulations, and industry best practices worldwide and uphold the highest standards of compliance and commercial integrity on a global scale.

Benefits Overview

LegitScript Certification supports seamless healthcare merchant onboarding and monitoring in adherence with Certification standards, by aligning regulatory compliance with a commitment to operational efficiency and an exceptional customer experience. Our partnership empowers payment service providers to:

✓ Rapidly and safely onboard merchants operating in high-risk areas with confidence

✓ Stay ahead of evolving regulations with real-time insights

✓ Collaborate on compliance and policy issues to address emerging challenges

✓ Meet key card network requirements by ensuring merchant jurisdictional compliance

Which Merchants Qualify

The following types of healthcare merchants are generally eligible for Healthcare Merchant Certification. Payments companies already supporting, or interested in beginning to support, one or more of these merchant types can explore partnership opportunities with us to certify their merchants.

- Online pharmacies
- Telemedicine and telehealth providers
- Medical spas processing card-not-present
- Pharmaceutical manufacturers
- Wholesale drug distributors
- Prescription eyewear merchants
