

# Database Lookups

Confidently verify the legitimacy of healthcare products and ingredients, as well as rogue and certified merchant websites.

In a world where regulators carefully scrutinize dietary supplements, designer drugs, and pharmaceuticals, it's hard to know which products and ingredients are considered illegal, which websites you can trust, and where to turn for guidance. How do you know if the merchants you are about to onboard — or others already in your portfolio — aren't selling illegal products or involved in illicit online activity? With LegitScript's Database Lookups you can confidently check the status of these products and ingredients, and verify the legitimacy of rogue and certified merchant websites.

## Why use Database Lookups?

- Access Product Data Like No Other** Confidently check the legitimacy of products to help determine whether healthcare and supplement merchants are operating in compliance. LegitScript collects information from regulatory agencies worldwide and proactively identifies new products on a daily basis so you always have the most accurate and up-to-date information at your fingertips.
- Confidently Verify Merchant Websites** Search LegitScript's database of published websites to help you identify rogue online pharmacies as well as LegitScript-certified pharmaceutical, CBD, and addiction treatment websites. LegitScript is officially recognized by Visa for providing certification for card-not-present pharmacy merchants and telemedicine providers.
- Get International Coverage** If your merchants are selling in different countries, you need data that gives you global insight. LegitScript's database is international, covering regulatory information from more than 60 countries and 115 government agencies. Product classifications can be global or country-specific so you know what products are permissible and where.
- Self-Serve at Your Convenience** Each month, you get access to 500 product lookups and 500 website lookups. With these allowances you can simply check supplements and other healthcare products and websites on your own terms.
- Work with Trusted Data** Throughout the years, our data has earned the trust of industry-leading companies around the world. LegitScript is recognized by Visa and Mastercard, and trusted by companies including Google, Bing, Facebook, and Amazon to keep their platforms clean.

LegitScript has the world's largest, most comprehensive database of dietary supplements, pharmaceuticals, and other healthcare products.

LegitScript is trusted, used, recognized, or recommended by:

- Visa
- Mastercard
- Google
- Facebook
- Amazon
- And more!

## Confidently Verify Product and Website Data

### Product Data

LegitScript's database contains more than 150,000 dietary supplements, designer drugs, pharmaceuticals, and other healthcare products and ingredients.

### Problematic Products by Category

### Website Data

In addition to monitoring more than 2.3 million websites, LegitScript has a database of published websites that either pose a danger to public health or are operating in compliance, including those that are LegitScript-certified.

LegitScript-certified websites include:

- Healthcare merchants (pharmacies, telemedicine, and other healthcare merchants)
- Drug and alcohol addiction treatment facilities
- CBD websites

## Pricing

Each month, you get access to 500 product lookups and 500 website lookups. Your plan automatically resets each month until canceled.

Product Lookups (Per Month)	Website Lookups (Per Month)	Monthly Price
<b>500</b>	<b>500</b>	\$2,295
