CBD Product Certification Questionnaire

This is the information that applicants are required to provide when applying for LegitScript CBD Product Certification.

Company Information

- Legal business name
- Doing business as

Product Documentation and Questions

- Please state the number of CBD products you would like to submit to LegitScript for CBD Product Certification. Note that all products will be tested by a third-party lab chosen by LegitScript.

  - Are any of these products dietary supplements containing CBD?
  - Are any of these products edible CBD products?

- Please provide information on each item you are attempting to certify:

  - Your relationship to the product you wish to certify (e.g., product manufacturer, contract manufacturer, private labeler of CBD products, retailer, etc.)
  - Brand name
  - Product name
  - UPC (Universal Product Code)
  - Product type (e.g., cosmetic, soap, hemp flower, topical oil, etc.)
  - Product description
  - Product image

LegitScript

As the leading third-party certification expert in tightly regulated and complex sectors, LegitScript is trusted by Visa, Google, Bing, Facebook, and major global payment service providers.

- Any product test results, including cannabinoid profile testing, heavy metal testing, pesticide testing, and microbial testing

- Certificates of analysis for the raw CBD or cannabis ingredient used in each product, which demonstrate the product would be considered hemp under federal law

- All ingredients contained in this product, including name and amount

- Please upload a spreadsheet (template provided by LegitScript) with an overview of all required licenses or registrations, if applicable, for the jurisdictions in which the products you seek to certify are manufactured or processed.
